

# Charity Insurance

## Protection for your organisation and premises

### Tailored forward-thinking insurance for charity clients throughout the UK.

*When it comes to providing **charity insurance**, we understand that every pound you spend is precious. As an independent multi award-winning insurance broker with a dedicated division in the charity sector, we provide peace of mind regarding your assets, volunteers, employees and trustees.*

Each charity has its own unique set of requirements, which is why we pride ourselves on focusing our attention on a client-by-client basis, not a 'one size fits all' approach. This means we provide you with a personal service that understands you and your charity, so we can recommend a tailor-made policy.

Charities can rely on the support and impartial guidance of our experts who will find a bespoke charity insurance solution which covers all their needs.

We appreciate that charities have to run on a tight budget, and as a specialist charity insurance broker, we will obtain the best possible insurance package for you, at the best price, by looking for deals from the country's leading charities insurance companies. We are passionate about the fantastic work the charities we have been involved with over the years undertake and are proud to play our part in helping their organisations have a secure future.

We are focused on providing a solution to risk issues for all types of charities. We employ sector professionals who use their market knowledge to position and place your risks with the right insurer at competitive pricing – ensuring that coverage and service is at the forefront of programme design.

**Our team will work with you to put effective risk management plans and control actions into place.**

### Experience that is second to none

**You will have the comfort of knowing you have the appropriate insurance protection in place to meet your needs.**

We specialise in providing bespoke insurance arrangements for, but not limited to:
